

# Deploy on AzureStack with LDC

## Exploiting the Best of Hybrid IT Solutions

### Dedicated Support

24/7 "on call" local support

### InHouse Expertise

Certified Experts in Cloud Technology & Infrastructure

### Proven Track Record

Partners to 100+ Clients across multiple industries

### Powerful Technology

Certified Partner to multiple leading cloud and hosting platforms and technologies

Add cloud capabilities to your on-premises workloads and infrastructure with LDC. We ensure no downtime, superior 24/7 local support and unlimited access to certified Microsoft experts. Using Azure stack improves the agility, scalability, and reduces total cost of ownership (TCO) because you only pay for what you use.

### A Message from the CEO

*"Connected with dedicated data lines, Azure Stack omits all latency issues and provides heightened security. Clients who have security and/or data regulation constraints when it comes to cloud migration can now safely move their applications to AzureStack which easily connects to cloud applications on Azure".*

*Gamal Selim, CEO at Link Data Center*

### About AzureStack

Microsoft's Azure Stack is a hybrid cloud computing software solution based on the Azure cloud platform. Azure Stack is designed to help organizations deliver Azure cloud services from their own data center. It is an extension of Azure that brings the agility and fast-paced innovation of cloud computing to on-premises environments.

### Why LDC?

Link Datacenter is a certified "Gold" Microsoft partner that provides a variety of data hosting solutions both on Azure and its local data centers, and managed services to cross vertical enterprises. As the first provider in Egypt to offer Azure Stack Cloud Services inside its local data centers and a pioneer in the data center world, LDC has safely led hundreds of businesses of all sizes across the Middle East reap the limitless benefits of moving to the cloud.
