

Managed Colocation

Maximum Uptime. World-Class Security. 24/7/365 Support.

It's time to get out of your self-managed data center without compromising your existing infrastructure. Whether you're looking to lower your TCO, improve disaster recovery or ensure your workloads are running in risk-free environments, LDC warrants safe "lifts and shifts" to secure destinations.

More than Traditional Colocation

Combining expertise in data center infrastructure and cloud innovation, LDC goes beyond the heavy lifting activities associated with colocation. We provide expert professional services, as cloud innovation advocates, trusted technology advisors and infrastructure specialists we are able to tailor and adapt our services and solutions to your unique business needs.

Guaranteed By LDC

Guaranteed unlimited bandwidth, high performance and minimal server consumption from our widely dispersed data centers in Egypt. Whether your organization is looking for everyday maintenance or solving complex infrastructure challenges LDC provides you with certified infrastructure experts and 24/7 support from our dedicated local technicians.
