

Media Platform Builder

Broadcast Video Content On Your Own Platform

Superior Video CMS

Optimal Performance

Seamless Scalability

Harness the power of scalable, secure and flexible video streaming in a matter of days. From selecting your desired monetization workflows, to branding your own platform, you can extend your reach, onboard new revenue streams and digitalize multiple areas of your business.

Your Video Content, Our Powerful Tools

Build, manage, publish, distribute, monetize and analyze your video content with LDC's Media Platform Builder.

The Media Platform Builder helps organizations setup and build custom branded media sharing platforms with live streaming and video on demand (VOD) capabilities. Using a robust CDN and advanced security parameters, organizations can deliver reliable, buffer-free video content viewing experiences.

A Turnkey OTT Solution

Like with any other technology powered business-line, running an OTT service is a complex process, juggling technological capabilities and innovation with backend technical performance can result in pulling the brakes on commercial growth and direction.

From encoding, transcoding, middleware, billing and hardware tools to unlimited customization features, LDC's Media Builder alongside our team of certified technology specialists handle the whole process from A-Z, allowing you to own and launch a robust and fully functioning platform, that can ensure sustainable business growth.

The LDC Guarantee
