

Video Learning Center

Provisioning Better Learning Experiences

Live streaming and on-demand video can have breakthrough results on student learning environments. Be it for geography class, musical sessions and/or professional training, these modern day technologies allow students and learners to consume educational content at their own pace, from anywhere, at any time.

Better Learning Experiences

Variety

Expose students and learners to an assorted wealth of knowledge by allowing teachers, staff and trainers to easily share seminars, lectures and talks from other institutions, on-demand video training or live recorded sessions.

Convenience

Learning at your own pace can mean a lot more than just being able to study at night. Provide learners with the ability to consume knowledge at their own pace, on Video Learning Center users can consume educational content and information from anywhere, at any time and across any device.

Support

Help learners understand complex information. Become advocates for "multi-modal" learning to support those who need that extra support by playing back previous classroom sessions to reinforce lessons learned or via video guidance for homework and/or exams.

The LDC Guarantee

Powerful Technology Platforms

All our services and solutions are built on robust infrastructure, hosted in highly secure environments. At LDC we only partner up with the world's most powerful technology provider using the best in-class technology stacks.
