

Voice in a Box

Enabling Powerful Productivity Tools with Voice Controls

A powerful productivity tool that comes with certified Microsoft devices and hardware, enabling businesses to chat, hold meetings, call and collaborate all in one place. Voice in a Box is an end-to-end voice solution built to drastically compliment Microsoft teams; officially dubbed the hub for teamwork in office 365.

Collaboration & Productivity in Today's World

Advancement in technology, unforeseen events and employee changing habits has caused the mobile workforce to more than double in size in the last decade. Working from home, managing remote teams and/or facilitating mobile work structures can cause a lot more than a literal disconnection.

Overseeing global teams or a remote workforce comes with many challenges and that's why organizations must invest in powerful technology that can facilitate meaningful collaboration without losing the ability to develop meaningful work relationships that drive innovation and promote a sense of belonging.

Microsoft Teams has driven and optimized collaboration, streamlining work and project management globally within multiple organizations across various industries.

To further strengthen the power of Microsoft Teams for your business, LDC has built powerful collaboration and voice controls to simplify your organization's every day interactions.

The LDC Guarantee
